# DEDICATION

Mr. Raymond F. Robidoux

We the Class of 1983 dedicate our yearbook to Mr. Raymond F. Robidoux.

Mr. Robidoux has been with the school since 1976. He has the responsibility of laundering uniforms and towels; distributing, repairing and supervising the return of equipment; and maintaining the cleanliness of the locker room areas.

His hard work, dependability, pleasant manner and perseverance in a job that is difficult, has earned him the respect of the students and the faculty.

# Superintendent-Director

Mr. Z. Walter Janiak

No graduating class in the past two decades has entered a society so economically troubled. This class's determination, fortitude, and perseverance will be severely tested. Many of you will discover as Benjamin Disraeli said "There is no education like adversity".

The fact that you are graduating is evidence that you have perseverance, that you do have the determination and courage to succeed despite adversities.

The education and training you have received is an investment in your future. It is an investment that provided you with the tools and expertise to lead productive lives, but most importantly also provided you with the awareness of the need to live and work together in harmony.

Booker T. Washington so eloquently stated that, "Education whether of black man or white man, that gives one physical courage to stand up in front of a cannon and fails to give one moral courage to stand up in defense of right and justice, is a failure."

This has been a good class. It has been a privilege and pleasure to have been a part of it.

I see you as bearers of the tradition of the long line of vocational graduates who have established themselves in our communities as good people, good citizens. I see you as participants in leadership roles in your occupations, in government, in education, in all you will attempt. I see you meriting the designation as the best graduating class of this school.

I congratulate and wish each of you a happy and successful career and life.

## Director

Mr. Joseph Barbero, Jr.

The graduates of the class of "83" face an exciting future. The problems of World Peace, nuclear power, the computer age and environmental controls are to be faced and solved by your generation. All of this in the face of temptations such as drugs and the problems of unemployment, pose you a challenge never before faced by a graduating class. We have trained you to face these challenges and feel secure knowing you will meet and conquer them. GOOD LUCK!

# Assistant Directors

Mr. Harry Kummer

Dear Seniors:

Remember it is your *Attitude* not your *Aptitude* that determines your *Altitude*. May God Bless you all with lives of purpose and service. Our football team showed the winning way this year; they did not know how to quit or take the easy way. That is the ingredient for success. Remember your our most important product; and we are proud of you!!

Miss Mary Ellen Cronin

I am happy to extend my congratulations and best wishes for future success to the class of 1983.

Your association with this school will not end with graduation. The years you have spent here, and the training you have received have formed a bond which continues into the future. You will be a member of the "vocational family" forever.

As with any family we will continue to take pride and pleasure from the accomplishments of each member of the vocational family.

We are proud of each of you as you receive your diploma and I am confident we will continue to be proud of you and your success in the future.

Although below .500, this years volleyball team's record, 6, wins 9 losses, shows a great amount of improvement. The girls were very competitive in every game, including those games against some of the league's powerhouses. As this year's record was an improvement over last year's, the feeling on the team is that next year will be even better.

# Soccer

The 1982 Varsity Soccer Season was a success, as both the number of athletes who joined the squad and number of wins increased. Team spirit as well as practice attendance remained quite high as evidenced by the number of participants who finished the season. Looking ahead to next Fall, the Varsity Soccer team should experience another winning season as the Varsity should be strengthened by a few promising Junior Varsity players. Division Record: 7 wins - 6 losses - 1 tie.
